

smartWALL the fast graphic wall

Installation within seconds as well as the fair price are striking arguments for the **smartWALL** system that convince every user. Easiest handling makes it an indispensable companion at fairs, conferences or sales events.

You can easily fold up the system and the graphic of PES-Banner (fire-retardant) that is fixed to the frame of aluminium by a hook-and-loop fastener. 4 different sizes are available for you. The exchange of the graphic is as easy as winking: tear off the old one and chain up the new.

Sizes and specifications

System and print on PES-Banner incl. transport bag
